

What are you feeling?

When you're feeling a certain way, it can be helpful to get clear and specific about how exactly you're feeling. When you're feeling "good," knowing more precisely how you're feeling can help you figure out what led to those feelings — so that you can do more of that! And when you're feeling "bad," it's helpful to know exactly what type of "bad" you're feeling so that you can take action to get the underlying unmet needs met. And hopefully feel a different sort of way.

Feelings when your needs are met

absorbed	clear-headed	excited	helpful	overjoyed	sensitive
affectionate	comfortable	exhilarated	hopeful	overwhelmed	spellbound
